## **DETAILED ACTION**

### ***Terminal Disclaimer***

1. The terminal disclaimer filed on September 30, 2005 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of USPN 6,461,733 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Allowable Subject Matter***

2. Claims 38-53 are allowed over the prior art of record. The following is an examiner's statement of reasons for allowance:

The closest prior art of record while generally and broadly teaching the composition does not teach or fairly suggest the composition of the presently claimed invention along with the physical characteristics as to the coefficient of thermal expansion within a particular temperature range, the Young's modulus, or Vicker's hardness.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
